

# POWERTECT WD

## Description

Solvent deposited water displacing corrosion preventative.

Powertect WD is a blend of de-watering agents, corrosion inhibitors, hydrocarbon mineral oils, waxes, synthetic sulphanates and hydrocarbon solvents. It offers medium term protection of ferrous and aluminium alloy components. It leaves a light film when applied.

## Benefits

- Solvent deposited
- Good dewatering properties

## Application

Powertect WD is best applied by dipping, spraying or brushing. If a tank is being used the residual water should be drained off periodically. Allow up to 40 minutes drying time. It may affect some rubbers and plastics on long-term exposure.

## Product Specification

Protection Indoors	6-12 months
Protection Outdoors	1 month
Protection Outdoors covered	Min 3 months
Micron Thickness (Dip)	2.1 micron
Covering Capacity	55 sq metres/Lt

## Typical Characteristics

Appearance	Brown
Specific Gravity @15.6°C	0.810
